SAFETY INTERIORS

ABOUT GOLD MEDAL SAFETY INTERIORS

Australia's leader in the sourcing and delivery of highly resilient intensive use furniture, mattresses and specialist safety products for use in Health, Corrections, Police, Emergency Services, Disabilities and Education.

Forging strong relationships with all major architectural and construction companies and health, police and correctional departments throughout Australia has seen us successfully deliver products into every State in Australia and New Zealand, providing a very strong referral portfolio.

Our focus is on what is important to our clients, adopting a partnership style approach, be responsible and reliable and beyond all maintaining continuous communication through all stages of the process.

We provide relevant advice for suitable products and evidence on how the initial investment gives outstanding value for money over the long term. Norix Furniture has an amazing life span which has been proven over decades in the toughest conditions.

ABOUT GOLD MEDAL SAFETY PADDING

The international benchmark for the provision of Personal Safety Rooms and Padded surfaces for use in Health, Corrections, Police and Private facilities.

For nearly 30 years we have exclusively represented Gold Medal Safety Padding outside of the United States and Canada. With many strong international relationships from agents to end users, we can provide a solution for many difficult situations.

Our solution focuses on the very important aspect of safety and design but also has a strong component of value for money. In over 30 years of representing Gold Medal Safety Padding we have not had to carry out a major repair or refurbishment due to intentional damage or wear and tear. For these types of environments this is an outstanding result which our clients overwhelmingly appreciate.

OUR PRODUCTS

Norix furniture is the market leader in creating and manufacturing humanizing products for challenging environments.

Norix has a unique range manufactured to the highest quality and constructed to ensure it can stand up to the harshest conditions and last for decades.

The range consists of, but is not limited to:

- Attenda bedroom furniture – a rotationally molded polyethylene outer layer with injected foam core provides a highly resilient product which will not fade, crack, sag, rust or delaminate.

- Hondo lounge style furniture – a modular system of freestanding chairs is a compressible foam covered in a seamless 6mm vinyl. This chair has proven to be one of our most successful items and is used in many health, disability, education and correctional facilities.

- Toughcare series – is a rotationally molded polyethylene product left hollow which allows the client to ballast with dry sand to a weight deemed safe for their facility.

- Harmony chairs – contemporary, commercial furniture which has a range of fabric options, provides amazing comfort but at its core is constructed of heavy grade steel framing.

- Mattresses – a full range of health and institutional sealed seam mattresses.

The full range can be viewed at www.norix.com

OUR PRODUCTS

Gold Medal Safety Padding is a tough, resilient padding system providing maximum safety with minimal maintenance.

It can be installed and adapted to fit any existing room or new construction. Manufactured from a urethane resin it will never crack, sag, delaminate or deteriorate in any way.

With our original installations still in place and functioning properly, our clients are satisfied that initial outlays have provided a cost effective and value for money solution.

www.goldmedalsafetypadding.com.au

Apex Padding System is a low-cost padding system for use where resilience is not the determining requirement.

It is manufactured in manageable sized panels and simply attaches to a wall, floor, door or other surface to provide an adequate level of protection as determined by professionals or carers.

LOGISTICS CAPABILITIES

Gold Medal Safety Interiors is well supported by an incredible logistics organisation in Australia, which coordinates all international and local delivery requirements.

We welcome your enquiry for any of these areas or assistance in establishing a new region.

MANAGEMENT PROFILES

Martin Green

Managing Director

Martin established Queensland Locksmiths in 1987 and built it into a leading security business that serviced many major business and government clients throughout Queensland. In 1992 he added the Gold Medal Safety Padding business to the group. Prior to selling Queensland Locksmiths in late 2006 Martin established CellCon Pty Ltd. This business was a steel fabrication operation specialising in the design, manufacture and installation of detention doors, windows, cell fronts, walls and furniture for correctional and police facilities. Subsequently this business was sold in 2015 but having already identified the intention of facilities to humanise their buildings Martin established Gold Medal Safety Interiors, which continues today with Gold Medal Safety Padding.

Martin has a strong sense of quality and a drive to ensure his products outperform any competition. Over the years he has built strong and loyal relationships with his many clients, staff, suppliers and partners, who trust his recommendations and ability to source hard-to-find products.

Michele Longfield

General Manager

Michele is a natural organiser with strong business management skills. Michele has qualifications in bookkeeping and a degree in architectural studies with extensive experience in office administration, budgets and project management. Michele has experience in the Construction Industry, managing her own commercial glazing business and property portfolio for 11 years.

Michele enjoys working with designers, specifiers, facility managers and cost consultants to help determine what specialised products are the best fit for their project.

MISSION, VISION, VALUES

Gold Medal Safety Interiors' mission is to establish and build relationships with Government and private industry, by researching and delivering products and services of the highest quality, on time and exceeding expectations.

Professional and dependable service, a hallmark of Gold Medal Safety Interiors, has underpinned business success on numerous projects throughout Australia and overseas. This reputation is strongly endorsed by clients, many of whom have praised us for our vision and ability to solve problems beyond our scope of work.

The values of our business are to be trusted by clients to provide viable options and solutions to unique supply requirements. Gold Medal Safety Interiors team strive to be leaders and innovators in the presentation of ideas and products by sourcing specialised solutions at the request of our clients.

Gold Medal Safety Interiors maintains an extremely high value on integrity and ethical business practices. As our main client is usually government departments it is important to ensure all aspects of our business, products and communication are professional, respectful and honest. If we make a recommendation it is essential it delivers as promised. Our 30+ years in business is testament to the fact we are highly respected and can be trusted.

TESTIMONIALS

To comply with Government contractual requirements, we are unable to publish the names and details of the source of our great feedback – but the following are extracts from letters we have received...

"..all of the units that were supplied are like 'new' which is testament to the quality and durability of the furniture that you have supplied as it has been installed for the best part of eight years. Due to the environment in which the furniture is fitted in and with the high volume of "traffic" coming through the cells on a weekly basis, the units have stood up remarkably well to the constant mistreatment they endure. Other than cleaning them, they have had no maintenance works carried out on any of the products."

"Our new furniture has arrived and set up in the ward lounges. Initial impression is very positive, bright new colours, comfortable and looks great. Thank you for the professional service you provided throughout."

"...the previous furniture lasted less than 12 months, the Norix range installed five years ago still looks the same today as it did when it was delivered. We will continue to replace our used and tired looking items with the Norix brand, whether it is the highly resilient or general use products, it has proven its incredible quality which is good enough for us to use it for years to come..."
